Configuring the Most Viewed Product Module - General Settings

Content:

- **Step 1:** Navigate to Stores > Configuration > Mavenbird > Most Viewed.
- **Step 2:** Enable the module by setting "Enable" to "Yes."
- **Step 3:** Enter the desired title for the module (e.g., "Most Viewed Products").
- **Step 4:** Set the product limit for display (e.g., 6 products).
- **Step 5:** Select the product display option (e.g., Show Products from Current Product Category Only).

Product Display Options

General Settings

Enable <small>[store view]</small>	Yes
Title <small>[store view]</small>	Also Viewed Product
Product Limit <small>[store view]</small>	6
Product Display Options <small>[store view]</small>	<div>Show Products from Current Product Category Only</div> <div>Show Products from Current Product Category Only</div> <div>Show Child Category Products from Current Product</div> <div>Show Products from Selected Categories Only</div>

Step 1: Navigate to Stores > Configuration > Mavenbird > Most Viewed.

Step 2: In the "Product Display Options" dropdown, select one of the following options:

- **Show Products from Current Product Category Only:** Displays products from the same category as the current product.
- **Show Child Category Products from Current Product:** Displays products from child categories of the current product's category.
- **Show Products from Selected Categories Only:** Allows you to select specific categories to display products from.
